

LUTON'S OWN TIE

Luton had their own Cup-Final last Saty. What a game, we

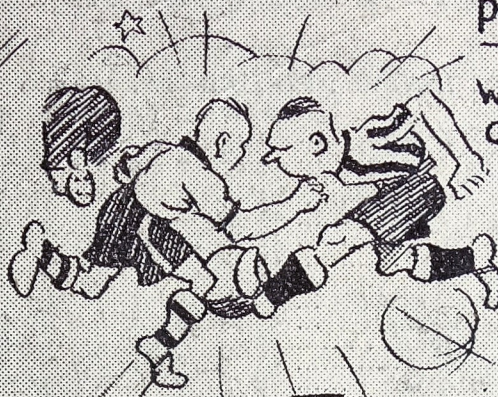

even had two new balls! Now we know why some people were overcome.

Ladder makers did good business helping people on to the stands-

& I should imagine the crowds left them all streamlined.

A war correspondent would best describe the game.

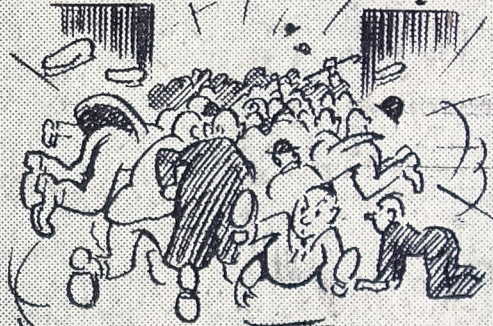

When Joe opened fans

-but Coventry equalised & were very confident

were dreaming of meeting the Villa next year-

even their trainer had his promotion suit on!

So over the weekend we were haunted by Luton's 'Ghost of a Chance'

A hard game but no worse than getting out before nightfall.

After a terrific struggle to get inside the ground our artist had a worse time getting out, but he thought the bother was worth while.
