CLUB NOTES

By Watchman

AT this stage of the season most clubs are taking stock. Some have difficult problems to solve, and our club must be counted among them. We have to get down to an intensely difficult task; points must be won in good measure in this second half of the season, so that in May we do not have to face up to an intense relegation problem.

The Swans are playing good football; there is little doubt of that. But that is not enough — there must be more goals, more intensive effort to finish off decidedly good approach work. That, therefore, must be our New Year resolution. Fortunately for us, one or two other clubs are in even greater trouble, but there is sufficient skill in our side not for us to depend on the shortcomings of others.

SAFETY MARK

Our players can very quickly secure a position of absolute safety, but we must get those elusive goals. Clubs who have triumphed over us after playing defensive roles for long periods have wondered at our lowly position in the League; now our side can demonstrate very clearly that we are in a false position.

Luton Town, our visitors this morning, are even worse situated, and our players should be able to secure these badly-needed points. There will, however, have to be an all-out bid for success in this and future matches.
