

Luton live on— thanks to Mac

SECOND DIVISION
Luton enjoyed this major triumph as they achieved their objective, a Cup replay on Tuesday.

Malcolm MacDonald's 69th minute goal wiped out Forest's 16th minute lead, a first score for ex-Montrose winger, Jimmy McIntosh in only his third senior game.

Both goals were far from concrete affairs. MacDonald's shot had power but it was his second go.

MacDonald's first thump at goal was blocked by a defender, but he took the rebound well for his 20th goal of the season.

Awkward

Forest's pre-interval goal stemmed from a John Winfield free kick, McIntosh forcing through an awkwardly bouncing ball.

It seemed Forest, more than fighting Luton, were troubled by the calamity just before half-time when Winfield, running and clawing at the netting, pulled it down and broke an upright.

That meant a new post involving repairs taking more than a quarter of an hour during which time the two teams returned to the

dressing room.

Forest lost all their rhythm and were never the same force again.

Luton's methods of quick bursts to the dangerous MacDonald and wingers Jimmy Ryan and Dan Givens paid off with the equaliser.

Forest staged frenzied

attacks in a late rally but their effort came too late.

Saves by active Tony Read and his colleagues continued the Forest frustration which has lasted 11 matches without a win.

Substitute Ronnie Rees was brought on but the Forest marksmanship was not clever enough.

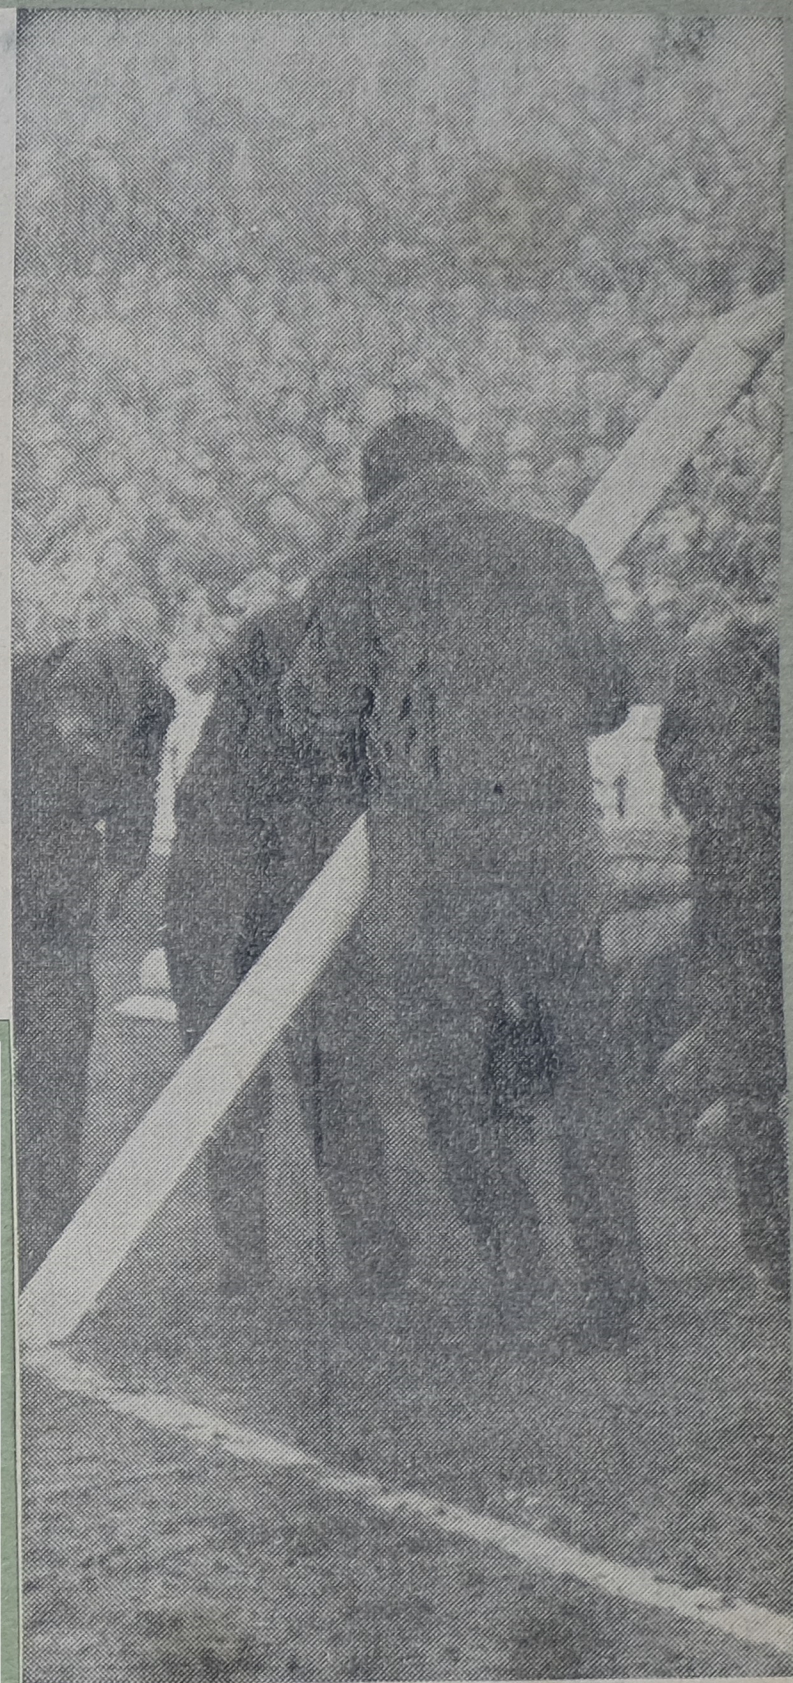

Brave Peter Cormack played almost a lone hand with little support and the well-composed Luton defence snuffed out all his efforts, barring flying headers which went over the top.

There was no difference in class once Luton had gained surety in defence and positive action up front.

Then more open approach work contrasted with the Forest policy of bunching in the middle.

Forest 1 Luton 1

TIMBER!—that was the Forest cry as a goal-post was snapped. No chance of a quick repair by these experts, either. Forest and Luton went off for 14 minutes while a new post was fitted
