## FOCUS (See Front Cover)

**NORTH END'S** latest first team signing, David Sadler, rated a capture by present values at £20,000, made 263 First Division appearances in his ten seasons with Manchester United. A former amateur star he proved his versatility in both attack and defence. Progressing quickly he gained Under-23 recognition. Soon afterwards (1967-68) he played for England against Ireland and Russia and was in United's European Cup winning line-up. World Cup squad 1970. England v. East Germany 1971.

# LUTON TOWN

**WELCOME** again to Luton Town, who are at Deepdale for the twelfth time since scoring the only goal on their first visit in January, 1950, when North End had been relegated. Helped by a "double" against the "Hatters" the following season, they regained promotion.

The next 10 meetings (1955-60) were in Division One and North End won six and drew two of them. Luton's only other success at Deepdale after a lapse of ten seasons through the ups and downs of both clubs was in January, 1972, again by the only goal.

During the intervening period the Bedfordshire club sampled life in Division Three (two spells of two seasons) and, in between Division Four (three seasons). They climbed out as Champions with 56 points in 1968. Two years later they were back in Division Two.

In a determined effort to regain the First Division status they lost in 1960 after five seasons in which their points totals were 42, 37, 44, 37 and 30, they finished sixth in 1971 with 49 points.

Inevitably they missed big Malcolm MacDonald, who was transferred to Newcastle United for a huge fee after scoring 30 goals for Luton Town in 1970-71: the outcome was only 87 goals for Luton in two seasons for a final mid-table position for them in both.

Judicious buying and selling has been reflected by improved fortunes this season. Leading scorers in the Division with 28 goals, they come to Deepdale sixth from the top with 20 points from 15 matches, mainly because of 12 points by 20 goals to 9 from seven home games. Only Aston Villa and Hull are also unbeaten at home.

Even so, a sound prescription for promotion is a point-a-game average away from home, and that is what Luton have managed in their eight away games by three wins, two draws and 8-11 in goals.

THEIR League record with North End is in our favour —

	P.	W.	D.	L.	F.	A	Pts.
Home	11	8	1	2	15	4	17
Away	11	4	3	4	16	17	11

22 12 4 6 31 21 28

We also won two F.A. Cup-ties (1895—2-0; 1921—3-2) and a friendly first meeting by 4-2 in November, 1894, all at Luton.

When last seen at Deepdale on December, 30th, last year, a 2-0 home win ended a North End run of two defeats and three draws, with 12 goals conceded. Although a timely victory it was not the expected tonic, for we lost 11 and won only one of the remaining 15 matches to finish with 34 points and just miss relegation.

Elected a Second Division club in 1897, Luton did not impress and were voted out on finishing their third season with 18 points. Returning to the Southern League they stayed there until its clubs were brought into The League on its extension in 1920, and spent 17 seasons in Division Three, gaining promotion in 1936-37.

## MANAGER

THERE is a football romance behind the success of **HARRY HASLAM** who, not yet two years ago, took over the reins at Kenilworth Rd. from Alec Stock, now manager at Fulham.

As a former team-mate of Manchester United's famed John Aston, his thoughts were far from club management when Tonbridge gave him his first opportunity. Soon he was Fulham's chief scout, next manager of Luton's Development (or entertainment) branch.

Scouting appealed to him. He unearthed Jimmy Ryan and Malcolm MacDonald, both signed by Alec Stock. The happy sequel is his success as a manager.

# CHARLTON CHAT

I AM DELIGHTED to welcome Luton Town for a number of reasons. First and foremost is that they are playing attractive football and their away record is good enough to put us on our guard. It would be nice to erase the fact that we were beaten by our local rivals Blackpool two weeks ago and hope that Luton Town, another prominent side, will be the ones to suffer this afternoon.

On the other hand I am pleased, for lots of reasons, to see here Harry Haslam, Luton's manager. I have not yet come into contact with him in the football fraternity, but everyone in the game has a high regard for him, and I look forward to "crossing swords"

It has been said over the past few weeks that I am bringing only Manchester United players to Preston. This is merely coincidence, but this afternoon could provide a chance for my critics to see their real worth. Playing for Luton Town are Jimmy Ryan and Johnny Aston, who were with me over a few years at Manchester United.

As in lots of cases, both have built another career with a second club with great success. I will be hoping this afternoon that Johnny Aston does not turn in the type of performance which made him famous during the European Cup Final. I could not have been more delighted that night, but I am keeping my fingers crossed that he does not repeat it to-day! Johnny Aston is a very direct left

winger who uses his speed and power of shot to great effect.

On the other side of the pitch Jimmy Ryan who, in my experience has played in the right wing position, is the opposite; a very tricky and skilful winger who lays on chances for others as against taking them himself.

All in all, this will look like a Manchester United reunion but owing to their professional attitude there will certainly be no love lost between these former colleagues in both sides during the whole 90 minutes. When they all have a drink in the Players' Room afterwards, I am sure they will forget whatever happened during the match.

As probably everyone has read, I did not attend our match at Oxford. This was for obvious reasons—we need strikers here.

We have probably only four who are recognised as such and if we were ever to go back and start playing with orthodox wingers in a 2-3-5 formation, then we certainly would need to have strikers to do the job properly. This is the Club's main priority, so much so that it was necessary for me to miss going with the lads to Oxford and watch another game.

This could quite probably happen again and again until we get the striking power we need. Therefore, the sooner we get a striker of the

right character and the right standard the more delighted I shall be.

When I heard the final score of 1-1 my first reaction was to be pleased with one point away from home, but then I realised how hard the team had worked, and that had they been a little less weak in character they would have let the Blackpool defeat affect their performance at Oxford. We will see this afternoon if it has been permanently erased or not.

FORGET Middlesbrough who, five points ahead of the nearest challenger, are strolling away with the title and unlikely to relax. Three up, three down means that 16 clubs will stay put. The present distance between No. 4 and No. 19 is a mere eight points.

Between Aston Villa (third) and Cardiff City (20th) the gap is 10 points. Obviously the situation is fluid. There are four clubs on 20 points, five on 17, two 15, three 12. Blackpool have leapt into the promotion zone since an away win v. Crystal Palace preceded two 0-1 defeats.

Their subsequent record is P6 W5 D1 Goals 15-3, 11 pts., and a leap to fifth place. These are the crucial weeks which shape the pattern. Bolton Wanderers, who began like a bonfire, have won once in two months and scored only four goals in seven games.

SURPRISE for many was a League attendance uplift of 35,000 to 589,753 at Saturday's 46 matches despite enforced early kick-offs. Was it more than coincidence that there were also fewer outbreaks of hooliganism?

Crowds ranged from the 41,768 attracted by Manchester United's Newcastle visit to Workington's poverty stricken 1,048. Averages: Division One 28,312; Division Two 13,952; Division Three 6,347; Division Four 3,902.

Scotland has more cause to moan over a First Division average of only 7,682. A total of 70,138 at nine games was exceeded by our Third Division's 76,183 at 12. The last two matches in the city of Dundee were seen by fewer than 8,000, so reviving talk of the two clubs amalgamating.

The biggest crowd in our Division Two was at the London "derby" where 30,054 saw Crystal Palace beat Millwall in a belated initial first win. North End

rued the fact that the lowest of three under 10,000 attendances was 6,750 at Oxford. Blackburn Rovers (record crowd 61,783 in 1923) pleased this season's biggest "gate", 8,850, by extending their unbeaten run to nine games with a 5-0 win which earned fifth place from the top.

The Rovers would have been back in Division Two if "three up, three down" had gone through a year earlier. Their spurt to third place last season brought 15,114, 16,346 and 14,346 to their last three home matches. Melancholy reflection—their 1963-4 Division One average was 21,543.
