**MANAGEMENT VIEW** : " I don't think Luton created problems attacking-wise but we created our own problems with silly individual mistakes and we've got to get that out of our game. They did nothing against us and in the second half we stuck in there when they came back and retook the lead. We should have killed it off but we didn't. Then we gave a way a stupid second goal and find ourselves back at Sincil Bank. A replay is fine and it might just help some of the financial problems we've got." - John Reames.

**LUTON VIEW** : "We wanted to go through at the first time of asking but when you look at the events over 90 minutes we're lucky to be in the third round draw. Lincoln can consider themselves unfortunate not to have won. As an attacking unit we were virtually non-existent in the first half. We let Lincoln have too much of the play. We had a 20 minute spell in the second half but that was about it from our point of view." - Lennie Lawrence (manager).
