

Town come unstuck at the Toffees

TOWN boss Mike Newell has called for his players not to let their 4-0 drubbing at Everton affect their league form.

Hatters were completely outclassed by the high-flying Premier League Toffees on Tuesday night.

And Newell said: "It's the biggest defeat we've had in a long time and one where we probably didn't deserve anything out of the game."

"There's a difference in class between the Premier League and the Championship and that showed up."

"I'm just disappointed that some of our players didn't do themselves justice and perform as they have been doing – a few of them will be disappointed that they didn't give a good account of themselves."

"It wasn't like we didn't create chances, but it was almost at times as though we were a bit scared."

"Maybe we'll just have to take that and write it off. I just hope it doesn't go on to affect them in the league."
