THE GAFFER

Mark Yates

Today I'd like to welcome Alan Neilson and his Luton squad here to Aggborough.

I for one was disappointed to see Mick Harford leave Luton last week as he's a good man. However, they are a big club in this division who will be desperate to get out at the first attempt.

Two clean sheets and six points in a week has got us close to where we want to be. The players have started to really believe that we can achieve something this season, and are beginning to understand how we go about that. We have a lot of new players who are getting to know each other more and will only get better as the season progresses.

The Wrexham win was a strange one. It was a really good performance, particularly in the second half, against a team who would have taken a point as soon as they had a man sent off. Maybe I'm too cavalier, but Wrexham showed no attacking intent, and that's not something we would do when we're reduced to ten men. At half-time we talked about playing with patience and purpose and the players carried out the instructions very well. Two good goals – and we could have had more – and a clean sheet, as well as

the way we kept the ball, was very encouraging. It was also great for Robbie to get his first goal for the club.

Tough

Then on Saturday we travelled to AFC Wimbledon who have made a great start to life in this division. It's a tough place to go, as only Oxford had won there this season. In windy conditions, both teams played their part in a decent game. Barnsey scored a cracker just after half time and we held on quite comfortably, despite playing against a strong wind and a team who threw everything at us.

We're in the middle of a really tough set of fixtures. I always say that every game in this division is tough, but when you look at the fixtures and see York, Wrexham, AFC Wimbledon, Luton, Crawley, Cambridge, Oxford and Kettering all together, you need your players to be focused, ready, and looking forward to these games.

Mine certainly are, and they're all desperate to be involved. These are the games we all want to be involved in, and do well in.

Get behind the boys, your support is much appreciated.

Mark Yates

a word from the editor

It's safe to say that AFC Wimbledon last Saturday will go down as one of those great away days you'll remember come a season's end.

Last year I'd have ranked Eastbourne and Wrexham right up there in terms of victories and outings in general, but last weekend's trip to Kingsmeadow might take some beating this term.

I was impressed with so much of what I saw from a football club still in its infancy. Less than eight years old, they're already talking about promotion to the Football League – that in itself just screams achievement.

It was a really entertaining game – not a yellow card in sight as both teams got it down,

Matt Wall

made the best of some poor conditions and moved it around well on a good surface.

Now we're back at Aggborough and must make sure we don't make it an away day to remember for Luton fans today. They're sure to have travelled well, so make sure the singing contest is a good one!

We're in good form and the Hatters no doubt have a point or few to prove – let's hope we get another entertaining game this afternoon.

Enjoy the game,

Matt

AFC WIMBLEDON 0-1 KIDDERMINSTER HARRIERS

A super strike just a minute into the second half was enough to give Harriers just their second away win of the season last Saturday as they took all three points from AFC Wimbledon.

It was the hosts who had begun the game the strongest of the sides, forcing some early corners before Matthew Barnes-Homer had the day's first chance with a shot from the edge of the area that was held well by goalkeeper James Pullen.

It was a match contested superbly throughout and without a hint of malice - typically 50/50 it was a key chance apiece either side of the quarter-hour mark.

First, Barnes-Homer chased down a lost cause and bustled through the defence to play in John Finnigan, one on one with Pullen. The midfielder controlled it well but could only shoot at the goalkeeper.

From the resultant throw, Pullen set Wimbledon away, Chris Hussey shooting well from around 18 yards, an effort that was goalbound without doubt was, for the second consecutive game, tipped over the bar at the last by a fingertip save from Dean Coleman.

On 31 minutes Harriers carved out another chance - this time they were showing what they can do from corners as a training-ground move almost paid off; Chris McPhee driving a shot hard towards goal that the 'keeper did well to keep out.

It was the away side who finished the first period the strongest and they carried that through to the re-start, just a little over a minute had elapsed when they finally opened the scoring. A neat move forward saw some sharp passing, Brian Smikle playing the ball into the feet of Barnes-Homer who, in a flash, turned on the edge of the area and blasted the most lethal of finishes past Pullen into the bottom corner of the net.

From there it was admittedly a bit of an onslaught as the home side pressed - they had two excellent chances prior to the hour mark as Ross Montague and Lewis Taylor both went close, the latter from just seven yards.

The chance to double the lead and arguably put the game to bed came with a little over 20 minutes left; a counter-attack seeing the pacy Barnes-Homer play in Smikle who on the angle

just lifted the ball over the bar.

Harriers threw on defenders Liam Dolman and Gavin Caines to try and soak up some more of the late pressure but for all their pressing, AFC forced Coleman into precious few saves of any note. Perhaps the closest they came was just five minutes from the end when Hussey's smart free-kick was turned behind.

"For the last month I think the players have understood what we've been talking about and they've produced good performances.

"AFC Wimbledon are an excellent side - I was very impressed with them and I definitely think they will be in and around.

They've got that momentum from last year and we knew we'd be in for a tough game."

Harriers boss Mark Yates

"I thought Kidderminster played very well today and thoroughly deserved their victory.

They are a well-set up side and did not allow us to play the football we can.

They looked very strong going forward and caused us a lot of problems."

ACCEPTABLE BEHAVIOUR AGREEMENT – ABA

During last season the Club received many complaints about the anti-social behaviour of a small group of our younger supporters at our home and away matches both at the grounds and in the local community. The activities of this small group have harmed the reputation and good name of the Club and the majority of our supporters who never cause any problems at any of our home or away matches.

In order to tackle this problem, in consultation and partnership with West Mercia Police I have introduced a procedure known as 'Acceptable Behaviour Agreement' or 'ABA' in short. The small problem group have been identified and all are being asked to sign the ABA in which they agree that their behaviour at any of our games, either at home or away, will not be such as to damage the good name or reputation of the club or lead to complaints from anyone about their conduct. If they should breach the agreement then this could lead to them being banned from attending any matches or be used as evidence in any Court proceedings relating to their anti-social behaviour.

I am confident that the majority of our supporters will welcome this positive move by the Club in taking some pro-active action to prevent the present problem escalating and only further damaging our good name. The agreement is in effect a 'Yellow Card' which hopefully the supporters concerned will respect and comply with. If they are genuine supporters of the Club, the ABA will hopefully encourage them to continue supporting us, but in a positive as distinct from negative manner.

Signed

Good afternoon to everyone and welcome to Aggborough for today's clash with Luton Town.

Last week Harriers managed a fine 1-0 win at the 1988 FA Cup winners, Wimbledon, whilst today gives us a chance to put one over the League Cup winners of the same year. Okay, it was not exactly the same Wimbledon whose 'Crazy Gang', upset the odds to beat Liverpool some 21 years ago. Then again, MK Dons have more to do with Bletchley Sports, than Wimbledon, geographically speaking of course. It is, though, the same Luton Town who did equally well in the same year to beat Arsenal to lift the then-titled Littlewoods Cup.

Now there's a name not seen on the high street anymore - well not in our town. Today's visitors' nickname of the 'Hatters' is also probably a blast from the past. One does imagine that the name comes from some form of local industry, probably much reduced from yesteryear. This is the same as the 'Saddlers' of Walsall and the 'Cobblers' of Northampton, where the town's main industry is carried forward by the local club. I was going to mention some teams with the profession of taxidermy, but I'll try and not upset anyone this week.

I suppose if Harriers had have adopted their local trade, it would have been the carpet industry. Perhaps we would have been known as 'Weavers' or, more bizarrely, the 'Crealers' or 'Bobbin boys'. These days, most towns, Kidderminster included, would probably be known as the 'shelf stackers' or the 'Warehousemen'. There doesn't seem much industry about these days. That being said, Luton, could be known as "The white van men", as vans are still made in the area, at the moment.

I suppose my point of the last

couple of paragraphs is that lots of football clubs are very closely linked with the local economy. Over the years, much of the country's manufacturing jobs have been lost overseas. These days probably the only link with the past is the local football team. After all, Hednesford Town are still known as the 'Pitmen', with the coal mine a long time shut. Then again, there's still that Chicken factory at Hereford.

Moving on, with apologies to local rivals, Harriers face a Luton team who perhaps really shouldn't be playing at this level. This is to say that our guests' relegation last season was down to matters off the field. In fact, with point deductions, Luton have suffered two demotions in as many years. Whatever the rights and wrongs, football matters are best resolved on the field and not by officials. Of course, many clubs have suffered similar fates over the last few years. With that, some clubs have benefited from such situations -

"These days probably the only link with the past is the local football team. After all, Hednesford Town are still known as the 'Pitmen', with the coal mine a long time shut."

such as Altrincham, who have been spared relegation on a number of occasions.

In such cases one does feel that something better could have been done. Perhaps, if the perceived wrong doers are still at the club in question, fair enough. But in most cases, they have already made their exit before the relevant authorities make their move. Then, the main suffering parties are the fans and players, which can't be right.

Maybe clubs should just be told that they must simply stay at the same level.

Basically, even if they win the League, they will get the trophy and the accolade, but must forgo promotion and possibly some of the financial rewards. Or maybe, in some cases, it might be less painful to actually drop a level, straight away. Maybe not in a financial way, but in football terms - it must be more fun actually having something realistic to play for.

Anyway, to finish off today, I wish everyone all the best of luck this evening, on the internet. Yes, the first official live internet game has arrived. Well, kind of. Yes folks, if you want to see England tonight it will cost you a fiver, and the best of luck to you.

Will the game stream nice and smoothly over the net? Who knows? Will you still be able to access it on other sites? One would imagine that if they can hack into normal satellite games, and places such as the Pentagon, tonight should be quite interesting.

No good for me, though - my pub hasn't got the net. Then again, all gather round the laptop!

**Enjoy the game,
Kevin Pickford**

Blue Square Premier league news

The month of October may only be a few days old but it has already claimed two managerial casualties. Coincidentally it was the two Micks; Wadsworth of Chester and Harford of Luton, who left their posts early last week.

The former parted company less than 24 hours after the 2-1 defeat at home to Forest Green. Poor form has seen the Seals only manage two wins from 13 Blue Square Premier games, the loss to Rovers proving the final nail in the coffin. On his departure Wadsworth stated the club was in poor shape and claimed it was surrounded by a negative environment. It now leaves City looking to make their 14th managerial appointment in ten years.

Meanwhile, a day later, Harford left Luton by mutual consent. The former Hatters striker was at the helm for two seasons during which time the club suffered successive relegations as they were deducted points for financial problems and entering administration. Chairman Nick Owen said in the end it was a very difficult decision to part company, but one that was inevitable given a run of three defeats in their last five matches. The club will now look to appoint a successor quickly as they bid to return to the Football League at the first attempt.

Despite such setbacks both sides responded well last Saturday. Luton triumphed 2-1 at home to Tamworth whilst Chester earned a hard-fought point in a goalless draw away at Hayes & Yeading.

It was a busy afternoon of Conference football. Kidderminster secured a valuable three points on the road as they beat AFC Wimbledon 1-0. Matthew Barnes-Homer hit the winner just after the break to strengthen his side's play-off credentials.

The leaders Oxford suffered a set back as they were held to a 1-1 draw at Barrow. Jon Shaw had given the home side the lead when he turned in a deflected shot that ricocheted into the net off both posts but Luke Foster was on hand to equalise with a powerful header soon after. Kettering took advantage of this result as they closed the gap on the U's to six points. Mark Cooper's men saw off a determined Eastbourne side to secure a 1-0 win, with Moses Ashikodi scoring the only goal of the game.

Mansfield also picked up three priceless points to sustain their charge at the top end of the table by beating Forest Green 1-0 thanks to a Rob Duffy penalty. Elsewhere, Ebbsfleet versus Crawley and Grays Athletic versus Gateshead both finished 0-0.

Altrincham left it late as Tom Kearney hit a fabulous free-kick to give the Robins a 1-0 victory

over ten-man Rushden & Diamonds at Nene Park. The game looked set for a goalless draw until a dramatic late finale when Diamonds defender Simon Dowler was dismissed for bringing down Nicky Clee just outside the area. Cue Kearney who then stepped to curl the ball brilliantly into the top corner and secure the win.

Salisbury condemned Wrexham to a 2-1 defeat at the Racecourse Ground and increased the mounting pressure on Dean Saunders.

Stuart Anderson and Matthew Tubbs gave the away side an early 2-0 advantage and they looked to be in cruise control until Gareth Taylor grabbed a consolation midway through the second half. It made for a tense finish but the Whites managed to hang on for the win.

York salvaged a point at home to Stevenage thanks to Djoumijn Sangare scoring an injury-time header. Defeat would have been harsh on the hosts who dominated the majority of the match.

Sunday's only game saw local rivals Histon and Cambridge play out a pulsating 1-1 draw. Chris Holroyd had given Cambridge the lead but the hosts pulled level in dramatic fashion deep in stoppage time as Matt Langston headed in amongst a melee of bodies to make sure the Cambridgeshire derby finished all square.

On a final note, it emerged last week that Salisbury, who entered administration over a month ago, have accepted a proposal from a consortium of businessmen to buy the club. This news will come as great relief for all those connected with the club and they will now hope a deal can be finalised as quickly as possible. With matters off the pitch finally sorting themselves out it may yet prove to be a successful season for the Whites who, were it not for a ten-point deduction, would now be just outside the play-off places.

Dan Machin, our usual eye on the Blue Square Premier

radio waves

Harriers head into the home match against Luton Town in good shape after the excellent win at AFC Wimbledon last weekend in which they were good value for the three points in what was an entertaining game.

Following on from the home win over Wrexham, the only way was up for the Harriers who found themselves on the fringes of the play-off places ahead of this afternoon's game against Luton Town.

The Hatters are among the pre-season favourites for promotion after last season in which they never had a chance of surviving the drop from the Football League. Don't get me wrong, sides who flagrantly break the rules over administration and other financial rules should be punished, but many football fans felt Luton were especially hard done by in that they had absolutely no chance of avoiding the drop and so their season was written off in August.

Among the many talking points in football this week - aside from Sir Alex coming up with the world's most original reason for not beating Sunderland by deeming Alan Wylie wasn't quite up to it on the fitness front - has been the decision to show the Ukraine-England game on the web only. This is another sign that developments in technology are going to ensure that football fans will be watching their games on a myriad of different platforms in the coming years.

The Blue Square Premier lost out on much-needed coverage this season with the demise of Setanta and the general decline in revenue for television companies. Ultimately, this could be for the greater good of the game as, in my view, there is far too much mediocre football on far too many channels for too long. I would exclude the Blue Square Premier from this as it picked up a lot of followers of Premier League football who fancied a fleeting touch with reality and the viewing figures tended to bear this out.

The kind of games that you fear for are the largely meaningless Europa League games for the poor relations of the top divisions across Europe. While some clubs appear to be taking it seriously, there are others who are sending out second-string sides and television companies are then trying to talk up what are reserve teams in the hope of pulling in audiences. While there are some fans who would watch a televised game between two Unibond reserve teams, for the majority such is the amount of football on television that there is a serious danger of overkill.

The Europa League is a strange competition - the eventual winners will play nineteen games - so an additional half-season's worth of matches. For those clubs involved who are

also looking over their shoulders towards the Premier League relegation zone it is hardly going to be a priority. This, again, will serve only to encourage those clubs to field weakened sides in the competition - hardly a ringing endorsement for what is supposed to be European football's second biggest club competition.

The sooner they go back the old-style UEFA Cup where the clubs played each other over two legs on a home and away basis, the better for all concerned. The competition in its current format is further demeaned by the system wherein those sides that were too poor to qualify for the latter stages of the Champions League are then allowed into the Europa Cup - sorry, that is just a rubbish decision. Once you are knocked out of a tournament, there should be no second chances.

Ok, if you play in your local rugby club's end-of-season sevens competition and lose your first game, then you go into the Plate competition for the also-rans. But this is merely a thinly-disguised way of keeping those teams out of the bar until the sun is over the yardarm - hardly a satisfactory basis on which to base the running of European football's knockout tournaments.

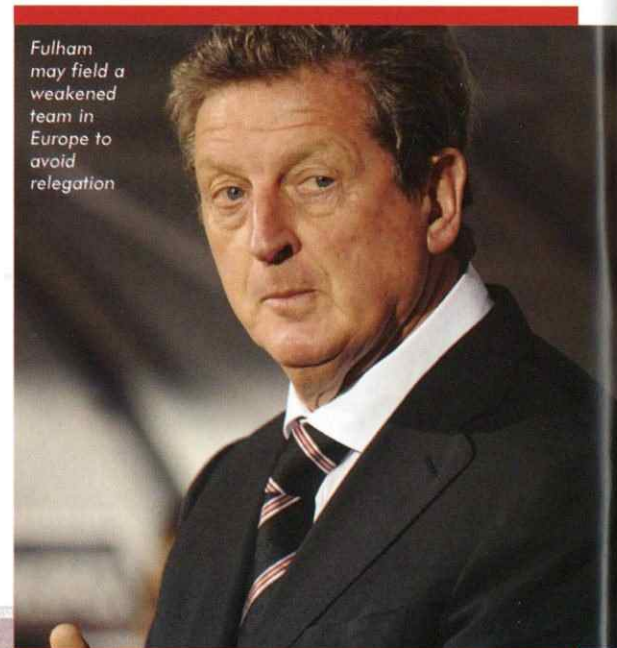

Mentioning tournaments that we could probably do without, it is to be hoped the Conference quietly let the league cup slip into oblivion this season. From the days when it was known as the Bob Lord Trophy, through all its various guises, it has never really taken off. Crowds are poor, the interest from clubs is minimal, so better they let it fade away.

Back to this afternoon, and what should be a really attractive game against a Luton side that is only one place above Mark Yates' side in the table. With things so tight at the top of the table this already has the look of a big match - even this early in the season. Here's hoping Harriers can maintain the recent good form and end the day in a play-off place.

Enjoy the game.

Fulham may field a weakened team in Europe to avoid relegation

FROM THE DRESSING ROOM

WITH SKIPPER CHRIS McPHEE

Good afternoon and welcome one and all to Aggborough for yet another massive home match.

Recent results have been very positive and the performances have also been of an encouraging standard, so as a squad we are going into today's game with bags of confidence and knowing that if we maintain our discipline regarding our application and work-rate, we could finish the match in the top five. The previous two matches have been quite different in how they played out but gladly the results of both games have been perfect from our point of view as a squad. Two clean sheets, which gives us all a massive boost and six points has moved us up six places.

We were pumped up for the Wrexham game and started well before they had a player sent off. They went ultra-defensive and tried to make themselves very difficult to break down and conceded a lot of possession. Playing against ten men is always difficult, especially when they are well organised but we had to remain patient. The remainder of the first half was very frustrating for us all but having re-organised at the break we came out for the second half with belief and a game plan which was executed perfectly and we won well having scored two well taken goals. We are all delighted that Robbie is off the mark in a Harriers shirt and hope there is plenty more to come.

Tuesday's momentum took us into Saturday's trip to south London with a spring in our step and an encounter with a young, lively and in-form AFC Wimbledon team - they had got off to a great start in their debut season in the Blue Square Premier. We once again had ensured we were organised throughout and restricted them to very few chances. Another solid team performance defensively resulting in a clean sheet and our forward play overpowered them many times and our goal was fully deserved, and well taken by Barnsey. Windy conditions and a few bobbles around our box were the only problems that came our way as Wimbledon

ran out of ideas towards the end of the game. A 1-0 victory was exactly what we had hoped to take back to Kiddy. A priceless and overdue away win!

From a personal point of view, to be asked to step in at the back for Gavin due to his suspension and come out of those two matches with six points and no goals conceded is very pleasing. The five of us have worked hard to make ourselves difficult to break down and I am delighted for Lee, Duane, Martin and, of course Deano, that their hard work is paying off! Long may it continue, although I am itching to get further forward and get involved in the great attacking football we are playing of late, and back amongst the goals too, I hope!!

The last month has seen performances of a very high, consistent standard; although some points have slipped away we have now had

...although some points have slipped away we have now had back to back wins and are full of confidence and showing our potential.

back to back wins and are full of confidence and showing our potential.

Today's visitors are Luton, one of the pre-season favourites for promotion, so this is our biggest game so far. After losing their Manager, the players will have a point to prove and want to overpower us today. We know that they will be organised and very competitive all over the pitch, however we have clicked of late and our work-rate has been outstanding. We know that if we maintain those standards of hard work, discipline and creativity, a win today is definitely possible and doing so will lift us into a position our performances have warranted.

Luton are a big club and have a huge following, no doubt they have a few in the stands today. Welcome to you all, too. Enjoy the game, but not the result I hope! Let's hope you all make it a fantastic atmosphere and the Kiddy faithful can cheer us on to victory! You really can make all the difference today.

Be very loud and we will make you proud - make some noise!

The Harriers youth team

With a break from action until the Midland Cup tie at Chesterfield this Tuesday, we take an opportunity today to get to know some of this year's young guns.

Joe HULL – Defender

Joe joined us this season after spending last term with Bromsgrove Rovers.

A commanding central defender, he is also Captain of the team. Joe has become a direct replacement for Zac Costello who has gone on to gain a contract with the first-team. Joe also impressed in the Worcestershire Senior Cup Final which was played in pre-season.

Redd SAVAGE – Forward/Midfield

Redd, a former pupil at Wolverley High School, has had a long association with the Community Scheme having joined our MiniKickers centre at five years old.

His football progressed exceptionally well, with Redd scouted by Wolverhampton Wanderers and Manchester United, though unfortunately an injury halted his progress.

He played games for our U16s last

Our Youth Team is a football and education programme for players ages 16-18 years, supported by ContinU; an amalgamation of Wyre Forest Schools and Colleges. The Junior Section includes social and selected teams from U9s-U16s. For details see...

season and has now joined us on our full-time programme.

Matt SMITH – Defender

Matt lives in Netherton and has joined our full-time programme, attending Kidderminster College.

He has done particularly well in pre-season and has forced his way into the Youth team. He was a member of our U16s squad last season.

Luton Town the story so far

Luton are arguably the largest club to feature in the Blue Square Premier, having been in the Championship as recently as 2007, but their bid for a quick return to the Football League saw the departure of Mick Harford, despite the classic Johnstone's Paint Trophy win last season and a reasonable start to this campaign.

Seemingly almost doomed to the drop by a 30 point deduction for financial irregularities and issues related to administration, relegation was not confirmed until there were four games left. Harford had hastily assembled a squad after the lifting of a transfer embargo just before the start of the season in August 2008, but after forming a competitive outfit in League Two, many are still at the club.

Signing for the Bedfordshire club were goalkeepers Mark Tyler and Shane Gore ex Peterborough and Stevenage respectively. In defence, Alan White returned from Darlington and Shane Blackett arrived from Peterborough, whilst there was a loan move for Grays' Fred Murray. The midfield was boosted by Rushden's Andy Burgess and winger Adam Newton from Brentford, whilst Exeter striker Steve Basham was added to the forward line, alongside Peterborough loanees Liam Hatch and Ben Wright, and George Donnelly from Plymouth.

Life in Non-League began with a 1-1 draw at AFC Wimbledon ahead of a crushing 4-1 home win over Mansfield and 2-1 home win over Gateshead. The trip to Forest Green brought a 1-0 win before 0-0 draws at home to Chester and at Kettering, to leave the still unbeaten Hatters in third spot at the end of August. September began well with a 3-0 home win over Crawley and 1-1 draw at Solisbury, but a first defeat was suffered, 2-0, at Oxford. They bounced back in a 1-0 home win over Barrow, but lost 3-0 at Wrexham ahead of a 4-3 win at Cambridge and 1-0 home defeat in the derby with Stevenage, which saw Harford leave the club to be replaced by Alan Neilson in caretaker charge. His first game brought a 2-1 home win over Tamworth.

The opening day last time around brought a 3-1 home defeat to Port Vale. However, the Hatters provided the perfect response in a 2-0 home Carling Cup win over Plymouth, followed by a 1-0 win at Gillingham, and a 1-1 home draw with Notts County. Exit in the Carling Cup followed at Reading, but a 1-0 win was earned at Exeter to complete an encouraging opening month. However, September opened with a 2-1 loss at Macclesfield, but then came a 3-1 home win over Aldershot. There was a costly 1-0 defeat at Rotherham, and a 1-1 home draw with Chester. October got off to a better start in the 1-1 draw at Bradford, and the Trophy run began with a penalties victory at home to Brentford. A double home defeat to Darlington and Accrington was a blow, ahead of the significant 2-2 draw at Grimsby, a side who would have been bottom if not for the points deductions

Luton secured the Trophy thanks to Chris Martin, Tom Craddock and Claude Gnapka in a 3-2 win over Scunthorpe watched by 40,000 Luton supporters.

suffered by other sides.

Ironically, many wins came against promotion-chasing sides, the pick being the 2-1 success at Bury, before a 3-0 reverse at Shrewsbury Town. Relishing the Trophy, Jarvis there was a 1-0 win at Walsall, but the Hatters were held to a 0-0 home draw by Altrincham in the FA Cup. Dagenham were beaten 2-1 in mid-November, whilst the Cup replay at Altrincham was won on penalties. Consistency continued to be a problem, though, as defeat at Rochdale was followed by a reverse at home to Brentford.

December suggested a turning point, with an eight match unbeaten run in all competitions. The eagerly awaited home clash with AFC Bournemouth ended 3-3. However, a 3-1 home win over Barnet, and an encouraging 0-0 draw at Wycombe was collected before Colchester were ejected from the Trophy at Kenilworth Road. Morecambe's visit provided a 1-1 draw, ahead of the 2-2 draw at Chesterfield on Boxing Day, by which time Town had reached -4 points. This was reduced to -1 by a 3-2 home win over Lincoln. After that, a winless run ensued, with a 2-2 draw at Chester followed by a 5-1 thrashing at Darlington, and a 0-0 draw in the first leg of the Trophy Area Final at Brighton. A controversial 3-3 home draw with Bradford came, ahead of the 1-1 draw at Bournemouth. Suffering back to back 2-1 defeats at home to Bury and at Dagenham looked to have ended survival hopes, but then mid-February brought the penalties victory over Brighton in the second leg which secured a Wembley date.

In the ten league games which followed, six brought victories, two were draws, with only a pair of losses. The fine run began appropriately with a 3-1 home win over Shrewsbury, ahead of a 0-0 draw at Accrington. February ended with a 3-1 win at Port Vale, whilst March began with a 0-0 home draw with Gillingham. The momentum slowed following a 2-1 home loss to Exeter, but the 2-0 success at Notts County kept them in touch despite a 2-1 loss at Aldershot. Town netted a late win over Grimsby which was built on by a 1-0 home win over Macclesfield and 3-1 success at Morecambe, as the Hatters stood eleven points from safety with seven games left. A 4-2 home defeat to Rotherham was hardly the ideal preparation for the final, but Luton secured the Trophy thanks to Chris Martin, Tom Craddock and Claude Gnapka in a 3-2 win over Scunthorpe watched by 40,000 Luton supporters.

Gerard Butler

The Dangerman

LIAM HATCH

This 6ft 3in Striker signed for the Hatters on a season-long loan from Peterborough United in June 2009 to help further boost the club's impressive attacking ranks.

Hitchin-born Hatch started his career with Herne Bay before a move to neighbours Gravesend & Northfleet in 2001. It was whilst with the now re-named Ebbsfleet United that the target man first tasted triumph, as he was part of the side that took the Fleet up to Blue Square Premier level by winning the 2001-02 Isthmian League title.

After a season in non-league's top flight at Stonebridge Road, Barnet paid big money to lure the then 21 year-old to Paul Fairclough's set-up. Come 2004-05 he was again sampling the delights of promotion glory, this time helping Barnet up in to the Football League. Such experience is bound to be vital during his time at Kenilworth Road as the Hatters look to head straight back up to League level at the very first attempt.

He was some way from prolific

in the scoring charts whilst at Underhill but his general play made him one of the most feared front-men in the division, and it wasn't long before big-spending Peterborough United took notice, paying a whopping £150,000 to take him in the January transfer window of 2008.

Harriers fans can draw parallels between Hatch and former Aggborough man Justin Richard, in that both struggled to find first-team football and stability at London Road after headline signings, spending time out on loan at other League clubs before eventually coming into the Blue Square Premier – Hatch making the switch in the summer to link up with then boss Mick Harford.

Unlike Richards' move to Aggborough in 2007, Hatch is only a Luton player temporarily – the loan albeit a season-long one – but there's little doubt that if he can make like many in the past and cause some serious waves at this level during the course of the season, he'll soon again be plying his trade back in the Football League. Hopefully, many a Hatters fan will hope, with his current loan club.

LUTON TOWN

Time now to take a quick look at the rest of the Luton Town squad set to take to the field here at Aggborough for this afternoon's game...

MARK TYLER

Hugely experienced goalkeeper who signed a two-year contract at Kenilworth Road in June 2009 following his release from Peterborough United. Mark made 483 appearances in 15 years at London Road and was rewarded for his loyalty with a testimonial against Liverpool in 2007. After falling down the pecking order at Posh he found first team opportunities hard to come by and in 2008/09 he was loaned out to League 2 Bury where he made 11 appearances for the Shakers.

CLAUDE GNAKPA

A defender capable of playing centre back or full back, who joined on a free transfer in August 2008. Having plied his trade across Europe with Montpellier HSC, Racing de Santander, Deportivo Alaves and FC Vaduz, Claude moved to Swindon Town for a brief spell, before being taken on in July 2007 by Peterborough United and was a regular in the League 2 promotion winning side, starting 25 league games.

KEITH KEANE

Having made his debut as a 16-year-old in November 2003, Keith Keane went on to enjoy an extended run in the side from February onwards whilst Kevin Foley was out injured. Another of the youth team who regularly appears for the Republic of Ireland at schoolboy level, he joined the Hatters at the age of nine having been scouted in local football, and has made a rapid progression through the club's Centre of Excellence and youth teams, demonstrating enough potential to convince former boss Mike Newell to give him his first taste of senior action. Keith has featured most prominently on the right of midfield, bursting forward to great effect to provide many goals for himself and his team-mates.

GEORGE PILKINGTON

Highly experienced defender who joined the club on a free transfer in August 2008. Having began his career as an Everton trainee, Pilkington joined Port Vale in June 2003, after a loan spell at Exeter City. Having started 223 league games for the Valiants, the highly regarded defender was named player of the year twice and club captain.

LEWIS EMANUEL

Lewis Emanuel arrived at Kenilworth Road in the summer of 2006 after deciding to leave his home

■ Keith Keane

■ Shane Blackett

town club Bradford City, the place where the defender started his career. Lewis is a pacy full-back but can also play on the left side of midfield, a position where he started on his league debut for the club. Lewis made over 150 appearances for Bradford in six-years at the club, scoring four goals. In his first season at Kenilworth Road he made 40 appearances, scoring twice. Out of contract at the end of the 2008/09 campaign, Lewis signed a new contract in July 2009.

JAKE HOWELLS

The young left back came through the ranks at Kenilworth Road and made his first team debut as a second half substitute in May 2008. He made his full debut in the Hatters colours away at Bradford City in October 2008. After making 36 appearances for the Hatters in the 2008/09 he was rewarded for his efforts with a professional contract in May.

ALAN WHITE

Vastly experienced centre half who re-signed for the Hatters nine years after leaving Kenilworth Road. Darlington-born Alan started his career with Middlesbrough. However, with first team opportunities limited at the Riverside, Alan jumped at the chance to sign for the Hatters in September 1997 for £40,000. After 98 appearances in Luton colours, Alan left Kenilworth Road in 2000, joining Colchester United on a free transfer. Four years at Layer Road came and went before he spent one-season spells at Leyton Orient, Notts County and Boston United. He signed for home-town team Darlington at the start of the 2007/08 season and went onto make 85 appearances for the Quakers before joining the Hatters for the second time in the summer of 2009.

CALLUM REYNOLDS

Young Luton-born defender who signed a six-month loan deal from Premier League side Portsmouth in July 2009. Reynolds began his career with Rushden & Diamonds having been spotted playing for the Crawley Green club in Luton. Despite not making a senior appearance at Nene Park, his promise playing for the Diamonds' youth team alerted the attention of visiting Portsmouth scouts and he subsequently signed for Pompey in the summer of 2007.

SHANE BLACKETT

Luton-born Shane signed for the Hatters from Peterborough on a two-year deal in the summer. Equally adept at centre-back or at left-back, Shane began his career with Dunstable Town before a switch to Arlesey Town in 2003. His form with the United Counties side alerted the attentions of Dagenham & Redbridge who signed the 6ft 3in defender in May 2004; where he went on to win the Conference in 2007 before his move to United.

ANDY BURGESS

Self-confessed Hatters fan, Andy signed for the Hatters in the summer of 2009 after being released by Rushden & Diamonds. The Bedford-born, left-footed midfielder can play in any position across the middle of the park and was ex-boss Mick Harford's first signing ahead of the Hatters' 2009/10 campaign. The England C international is back in training after an injury.

ADAM NEWTON

Following his release from Brentford, Luton swooped for former England U21 International Adam Newton in the summer. Predominately used as a right winger, the pacy wide man is equally as comfortable at right-back. Now a St Kitts and Nevis international, he has spent time on-loan at Portsmouth, Notts County and Leyton Orient, having started his career at West Ham before spending a spell at Peterborough.

ROSSI JARVIS

An adaptable player who can play on the left or right hand side of defence or midfield, Jarvis came through the Norwich City youth system, becoming the youngest player to appear for the reserve team at the tender age of 14. He went on to spend loan periods at Torquay United and Rotherham United and after finding first team opportunities hard to come by Jarvis joined Luton Town in August 2008 on a free transfer.

ASA HALL

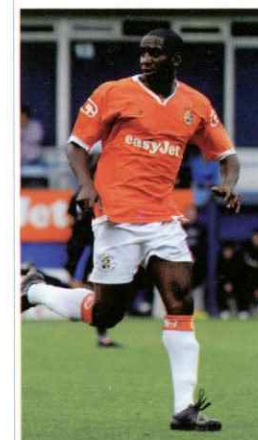

Hall is a versatile player capable of playing in midfield or defence. Hall began his football career in Wolverhampton Wanderers youth system, before signing his first professional contract with Birmingham City in 2004. He also received caps for England at Under-19 and Under-20 levels and went on to have loan spells with Boston United, Ashford Town and Shrewsbury Town, starting 13 games for the latter.

KEVIN NICHOLLS

Kevin Nicholls needs no introduction to most Hatters fans. The hard-working midfielder enjoyed six successful seasons at Kenilworth Road between 2001 and 2006, captaining the side to the League One title in the 2004-2005 season. Following Luton's successful first-season in The Championship and the spirited FA-Cup performances, Nicholls was a player very much in demand. He moved to Leeds United for £700,000 in July 2006 and was made club captain by then boss Dennis Wise.

■ Andy Burgess

■ Adam Newton

■ Kevin Nicholls

However, his very public fall-out with Wise saw him fall down the pecking order at Elland Road, and the following summer he moved to Preston North End for a fee of £750,000. His time at Preston began encouragingly, however a change in the management team saw his first-team opportunities limited. Kevin was delighted to re-sign for Luton, signing a three-year deal in August 2008 and being named as club captain.

RYAN CHARLES

An energetic striker who has made a huge impact at Kenilworth Road since making his debut in 2007. Charles, who has been at Kenilworth Road since the age of nine, had worked his way through the ranks at the Club before scoring 17 goals in his debut season for the Luton Town youth team. He followed that form up by scoring 12 goals for the youth team last season and his exploits during those two campaigns earned him his first team debut as a second half substitute at Southend in March.

TOM CRADDOCK

Originally a defender, Tom developed into a promising forward who has done well at youth and Reserve team levels with Middlesbrough. He was the eighth member of Boro's 2004 FA Youth Cup-winning side to progress to first team level. He joined the Hatters on-loan from the Riverside in October 2008, the move quickly becoming permanent in January for £80,000.

KEVIN GALLEN

A Shepherds Bush native, Gallen established himself as something of a legend at QPR. He notched up over 400 appearances and hit 97 goals for the R's in two spells spanning nearly 14 years. Gallen joined Huddersfield 2000 and after 10 goals in 30 starts for the Terriers, Gallen moved across Yorkshire to join Barnsley the following summer, but the call of West London saw him return to QPR within a few months. He scored nine goals in 16 league starts for MK Dons before joining Luton on loan, then on a permanent basis.

STEVE BASHAM

An experienced striker who joined the Hatters on a one-year deal in August 2009 following his release from Exeter City. The former Southampton veteran knows all about the game in the Football League and Conference following his time with Wrexham, Preston Oxford United and latterly the Grecians. He was part of the St. James' Park outfit that clinched promotion back into the Football League via the play-offs in 2008.

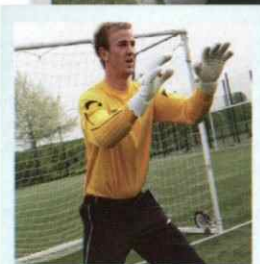

BEN WRIGHT

A striker who recently signed on a month's loan from Championship side Peterborough United, Ben notched his first goal for the club in last weekend's win over Tamworth. Whilst on loan at Kettering last season, Wright scored the 90th minute goal that ended Harriers play-off hopes on the last day of the term at Aggborough.

The struggling football club bandwagon rolled into Worcestershire recently with the news that Bromsgrove Rovers are entering voluntary administration.

In most current supporters' living memories they are the only club to have challenged our supremacy as the 'Pride of Worcestershire', albeit that's not a particularly mighty boast given that we are the only professional club in the county currently.

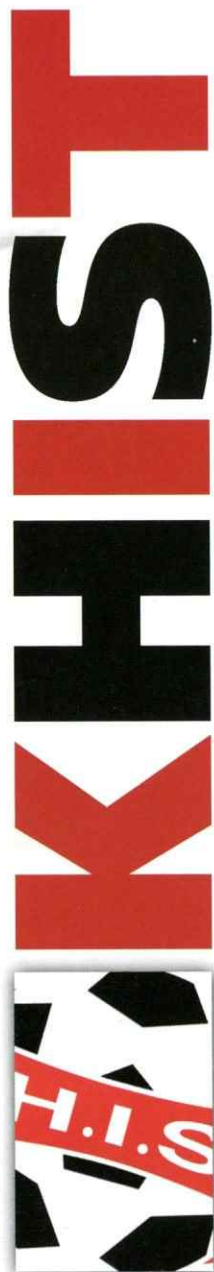

Rovers finished second in the then conference (now BSP) in 1993 but in 1997 were relegated and slipped down the pyramid. Since then we have arguably not had a local derby to call our own although some would say Hereford United and Cheltenham Town fell into the 'rivals' category - but neither are in Worcestershire and didn't quite have the same feel as a Rovers derby.

Despite the rivalry, I hope Bromsgrove pull through and once again join us but in the meantime I'll settle for a Harriers promotion to join Hereford and Cheltenham in League 2. I did

I did recently hear somebody suggest that Harriers and Bromsgrove should merge but if that happens in my lifetime then I will strip naked and parade around Kidderminster town centre...

recently hear somebody suggest that Harriers and Bromsgrove should merge but if that happens in my lifetime then I will strip naked and parade around Kidderminster town centre with a placard saying "I love Bromsgrove". A more sensible idea is for us to try and attract some of the floating/ex Bromsgrove fans and lure them to Aggborough, as long as they promise to never utter the 'B word' whilst in attendance.

Staying on the derby theme, I recently had a debate with friends over which was the biggest derby match in European football. The usual suspects came out; Manchester derby, Glasgow derby, Sheffield derby, Liverpool v Everton and so on. Closer to home, West Brom v Wolves and Blues v Villa games are obvious candidates. Moving into Europe and the Milan derby is a real contender along with perhaps Barcelona v Real Madrid even though geographically it is not a "local" derby. To settle the debate, at least where the UK is concerned, I turned to the internet and the much-used Wikipedia website:

The Football Rivalries Report 2008... produced a league table of rivalries based on the results of a survey of fans, ranking the results using a formula based on:

- ✳ the survey responses of both sets of fans
- ✳ the respective league and cup records of the two clubs
- ✳ the regularity of league and cup meetings between the rivals
- ✳ the two clubs' records when playing each other
- ✳ ✳ transfers between the clubs, and fans' reactions to those transfers
- ✳ off-the-field factors, such as media coverage of the rivalry

The top five most heated rivalries were found to be between:

1. West Bromwich Albion and Wolverhampton Wanderers
2. Ipswich Town and Norwich City
3. Liverpool and Manchester United
4. Portsmouth and Southampton
5. Cardiff City and Swansea City

Quite interesting to see that the match between two clubs on our doorstep comes out on top, particularly as a decent proportion of Harriers fans will also support one of these clubs. This once again highlights why it is difficult to build a good fan base here at Kidderminster, especially when you throw in Birmingham City and Aston Villa as other near neighbours.

Harriers don't appear in the long list of derbies on the same website, perhaps due to our non-league status, but our visitors today are listed with their main rivals being Watford. I still find it hard to believe that Luton Town are in the BSP. I remember them winning the League Cup in 1988 whilst in the top-flight of English football, but financial difficulties have presided over their recent fall from grace.

They join Oxford United and Wrexham as the clubs who many people will consider are "too big" to be in non-league football. However, Oxford have demonstrated how difficult it is to make it back into the League although their start to this season suggests this may be their year. As much as Luton fans will dislike being in this league, for me as a Kiddy supporter it is much better to play a club like Luton than one such as Hayes & Yeading, not least because of the amount of away support and the atmosphere that is generated as a result (not to mention the extra gate receipts for our coffers!).

Onto the game today, and a match between 22 players where the size and history of clubs becomes irrelevant for 90 minutes. May the best team win.

Come on you reds!

Official Match-day PROGRAMME

A series of articles by the Editor of PROGRAMME MONTHLY & FOOTBALL COLLECTABLE magazine describing how programmes have changed over a century and a quarter of Association Football

8. Top Club programmes through the Depression...

The dreadful, debilitating economic Depression of the 1930's had little impact on the style and standard of football programmes. Clubs continued to produce fairly substantial 1d or 2d issues, and they appeared to include as many advertisements as before, suggesting that programme revenue did not suffer the same fate as the rest of the economy. In terms of the quality and quantity of issues, the advances of the previous decade were consolidated and programmes changed little between

1930 and 1939.

Pre-war programmes from the North East of England are notoriously difficult to obtain today, but the Sunderland 1930's programmes were substantial 12 page productions with a splash of red ink on the front cover of an otherwise black-and-white issue. In common with most clubs at the time, there were no match details on the cover, simply the name of the club and a crest or logo; but the major part of the front page was devoted to an advertisement.

These, presumably expensive, adverts were invariably for well known local industries or enterprises. In Sunderland's case it was for Vaux Beers.

Newcastle United also issued an excellent pre-war programme, comprising 16 pages, printed dark grey on white paper. A sketch of two footballers shared club details at the top of the cover, which was dominated by an advert for the Sunday Sun newspaper.

The Sheffield clubs issued handsome programmes of contrasting styles.

Wednesday abandoned their long-standing small size with team lines on the front, to produce a splendid large page edition with a striking sketch of Hillsborough's main stand on the front cover. Sheffield United favoured a smaller size, in 16 pages, with red and white stripes on the cover and an aerial sketch of Bramall Lane showing the old cricket pitch and pavilion.

Fairly brief programmes were favoured by some of the top clubs - West Ham and Tottenham shared a similar style, with a very large folded sheet. There were few if any adverts, type-size was very small with plenty of reading crammed in, and the price was an undemanding 1d; but it remains a surprise to see such prominent clubs issue such brief programmes. Chelsea were scarcely better - albeit they put their name to 8 pages. In the Capital, it was Arsenal who produced by far the most impressive pre-war programme, with a 16 page edition that sported a deep red card cover advertising Highbury's enviable local transport links.

ADRIAN VIVEASH

AGGBOROUGH ALUMNI

Whether a Harriers legend or a one-hit wonder, Aggborough Alumni takes a look back at some of those to have graced the famous turf...

Born: September 30, 1969
Place of birth: Swindon, England
KHFC Career: Mar 2004-Sep 2004
Total Harriers apps: 14

With more than 400 professional career appearances to his name, it's no wonder that former boss Jan Molby hailed Adrian Viveash as a 'safe' signing back in March of 2004.

The Swindon-born defender began his career back in the late 1980s with his hometown club, making 54 appearances and scoring three goals for Town, but it wasn't until a move to Reading in 1992, the first of three stints there, that his career well and truly took off.

That's not even to say that he was an instant first-team regular, however. Over the course of two temporary loan spells with the Royals, he helped them win the 1994 Division Two title, as well as reach the following year's play-off final in Division One.

He finally left Swindon for Walsall in 1995. Sensing that his efforts contributed to such a success through just temporary

stints at Reading, it's no surprise that the Saddlers wanted Viveash for keeps, and even less of a shock that he went on to spend some five years there, amassing more than 200 appearances. Given the above you'd almost expect success, and it came as the defensive rock helped them on their way to Division One in 1999.

He returned to Reading for a final spell between 2000 and 2002 but after making 66 appearances during that stay, he struggled to hold down first-team football with regularity. A season at Oxford United saw him turn out just 11 times, prior to his 2003 return to their arch rivals Swindon.

It was from Town that Harriers signed Viveash on loan in 2004, Molby needing defensive cover in his quest to steer the club away from the Division Three relegation zone. His impact was, unsurprisingly, immediate, as were results - Harriers beating Northampton and York at home as well as Scunthorpe away.

He stayed for just a month, but his performances helped clear away any

remaining fears about the drop that season as Harriers finished comfortably in mid-table. It's no surprise that Molby then looked to make a permanent switch for Viveash in the summer, though circumstances dictated it was again to just be a one month stay at Aggborough for the player when he re-signed ahead of the 2004/05 season.

However with the side that started the term much changed to the one ending the previous, Viveash struggled to find the same kind of form. Ironically, the term that saw Harriers relegated from the League actually started strongly enough with three straight clean sheets, though five straight league and cup defeats followed to set the unpleasant tone.

Following an early September defeat to Leyton Orient, Viveash opted to return to Swindon where he was released a few months later. He went on to have spells at Aldershot and Cirencester Town after leaving Aggborough, spending 16 months as Manager at the latter before leaving in September 2008.

The 40 year-old is now a coach at the Chelsea Academy.

FLASHBAX...

STUART BROCK WAS CONTROVERSIALLY SENT-OFF AS HARRIERS SLIPPED TO DEFEAT ON THEIR FIRST VISIT TO KENILWORTH ROAD.

**Luton Town 1
Kidderminster Harriers 0**
Saturday, 16 March, 2002

Victory for Luton ensured that they are guaranteed at least a play-off spot while Harriers face a tough challenge if they are to make the play-offs themselves.

The visitors had to weather an early storm from their hosts, Craig Hinton was flattened by a challenge from Paul Hughes after just three minutes, and the Luton player was shown a yellow card. Stuart Brock had to be alert soon after when a dangerous cross from the left caused the Harriers defence problems but he punched clear.

Gradually Harriers got themselves into the game, but their five-man midfield didn't really create much offensively. Luton took the lead after quarter of an hour when Spring's pass gave Hughes a clear sight of goal and his blistering shot gave Brock no chance. Harriers only shot at goal in the first half came from Bo Henriksen but he curled his shot just too high and wide.

Throughout the game many of the tackles had been strong and caused tempers to fray. At the end of the half a fracas broke out on the pitch with players from both sides squaring up to each other and this continued in the tunnel as they left the field.

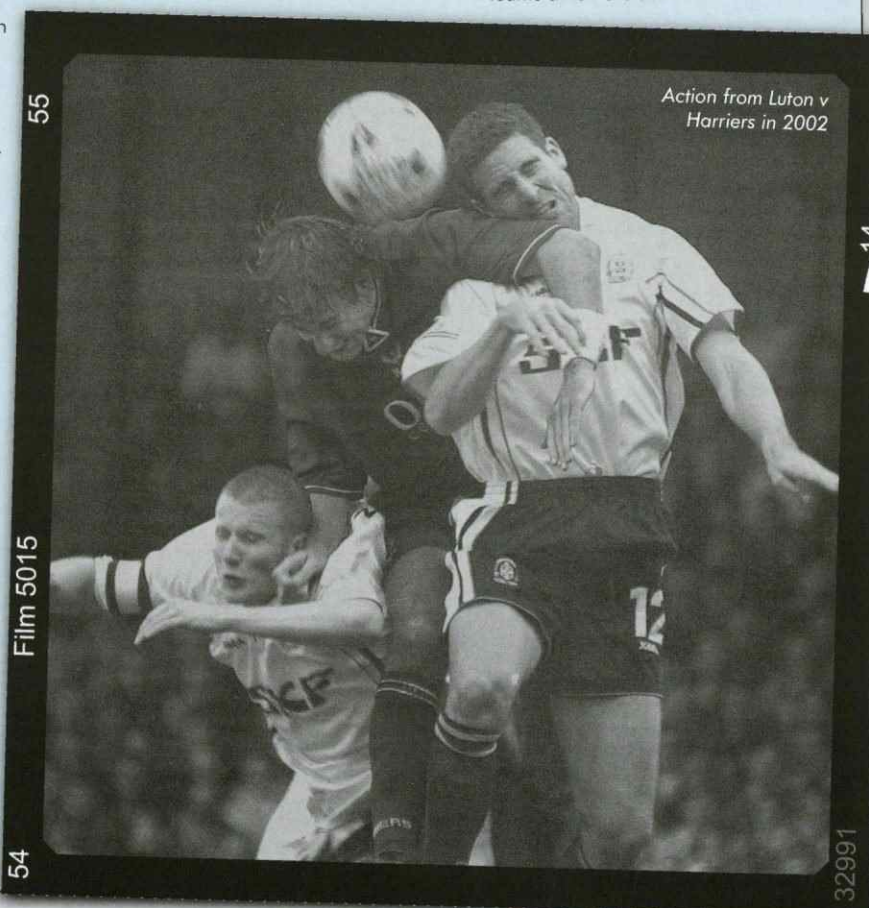

After the break Harriers had to soak up more pressure, but the defence stood firm and The Hatters only really came close when Steve Howard turned Alan

Nielson's cross against the bar. Harriers were reduced to ten men after 65 minutes, Stuart Brock raced out of his area to intercept a through ball which appeared to strike him in the chest. The home supporters howled their protests that he had handled and referee Hegley stunned the Harriers by showing the red card to their keeper.

18 year-old youth team keeper John Danby was thrown on for his first team debut in place of Ian Clarkson as

Harriers reshuffled and faced a baptism of fire. Fortunately for the youngster he was standing in front of the Harriers support and received no abuse. The rest of the Harriers defence protected him well and he only had to save once, stopping a shot from Howard at the foot of his right-hand post.

The drama was not over, however, as in stoppage time Hughes was shown a second yellow card after he kicked the ball away and was sent-off levelling the teams at ten-a-side.

I Don't Feel Like Dancin' - Scissor Sisters

Lee Baker

In the build-up to today's game with Luton Town at Aggborough, we took time out to have a quick word with Harriers left-back Lee Baker.

The former West Bromwich Albion youth star completed a first full season of competitive career action last term, starting on loan from the Hawthorns and then as a permanent member of the Aggborough squad.

Baker amassed 45 appearances for the club in his defensive role, but this achievement still ranks as somewhat remarkable in itself, given that it was only the season prior to last that the ex-Baggies boy sat on the sidelines for close to a year with a knee injury he feared could end his career.

Reflecting back on his first term as a 'pro', there's little doubt that Baker feels stronger for the experience – now it's about moving forward.

He comments: "It's still a great experience to be able to draw back on. It's always good to look back whenever things are going very well or very badly because it provides a good grounding for you – there's always something worse you could be doing."

"Last year was about getting back playing games regularly after having a year out with my knee."

"Last season has, mentally more than anything, stood

"I would disagree massively with anyone who says anything like that," he went on to add.

"It goes without saying that last season we had some good players here but they've gone on to other things and all the best to them."

"The lads we've got in this year are a good bunch and by no means are we weaker in any part of the field – this is a good, strong group of players."

"Different players coming in will always bring different attributes and you have to say that with so many new faces it's always going to take a bit of time to gel and we've seen that."

So what of this 'new' crop? It would be a fair summation to reflect that Harriers started the season in solid if not spectacular form.

But the last month or so has seen an upturn in overall performances, style and most of all, results. All down, of course, to hard work.

"I'd definitely say we had an indifferent start," agrees the defender.

"I think there's a lot more to come from us and I wouldn't say by any means that we're the finished article as a team."

"We're all working hard in training and results over the last few games have shown what we're capable of."

"Anyone who has played in this division will know that it's all about hard work, and as a group we do have a good work ethic about us."

"If you start games right and fly out of the traps it sets the standards for everyone else. The fans have seen us doing that and we have earned the right to play our football."

Today Harriers tackle Blue Square Premier new-boys Luton Town at Aggborough as the Hatters continue to adjust to life away from the Football League, though determined as they are to ensure their stay is only a short one.

As he believes each and every week, Baker is fully aware of the job in hand this afternoon. It is, however, once again of respect for the opposition, but not fear.

"They're a top side and they have kept a lot of the players together from last year," he adds.

"The League table doesn't lie and you only have to look at where they are."

"They will definitely be up there come the end of the season – they're a strong side and we're under no illusions about that."

"But it is about us – we know Luton are a good side but we don't fear them. We have respect for every team we play, but we'll be concentrating on what we're doing."

"Today's game should be a good one for everyone involved."

"Anyone who has played in this division will know that it's all about hard work, and as a group we do have a good work ethic about us."

me in good stead for what will be the rest of my career.

"I won't lie – there certainly were times, especially after that first game when it sort of ballooned up again, when I thought 'what if this doesn't get better?'"

"It was a bit stop start and there was a lot of stuff going through my mind – I'd get through one hurdle and hit another one and that was incredibly frustrating."

"Now I've learned how to look after it and how to take care of myself before and after matches. I can still get discomfort from it but, touch wood, at the moment it is the best it's felt for a very long time."

"This year now I'm trying to knuckle down, work hard in training and keep on improving."

Baker's signing of an 18 month deal back in January meant he was one of a strong handful of last season's play-off chasers to remain at Aggborough whilst others chose to or were required to seek futures elsewhere.

Although he had several new team mates come the kick-off of this campaign, he flatly refutes that the team has been left worse off for the summer changes.

Work-rate the key insist striker
Robbie...

For all the quality they've shown in recent weeks, there's no secret about the fact that the biggest factor in Harriers' steady rise up the table is their consistent work-rate.

After a solid if not spectacular start to the season, Harriers have picked up the pace and looked more than encouraging over the last month or more.

Perhaps a measure of just how far they've come over a short time was last weekend's 1-0 away win at AFC Wimbledon.

Though the win was far from undeserved, it was just a second on the road for the boys all term long. Corners being turned, perhaps?

"It was a good game and everyone was absolutely drained because we all put 110% in," insisted front man Robbie Matthews after the game at Kingsmeadow.

"It wasn't a match where you could get the ball down all the time; it was more of a battle but we did the right things at the right time and that's what you have to do.

"We need to go away from home and nick these wins and keep playing well to stick near where we are around the play-offs.

"Fair play to Wimbledon because they played some good stuff at times but we defended really well and I don't remember them having any clear-cut chances.

"Barnsey got half a yard to take a shot and it went in - it was a good performance."

Just one game prior to that it was Matthews celebrating as he opened his account for the club with a goal in the 2-0 home win over Wrexham.

Looking forward, the powerhouse stresses that the foot will not be taken off the gas at Aggborough now the team have elevated themselves into such a position.

They quite fancy some of the respect, dare we say fear, commanded by other teams - some of whom Harriers have already dispatched recently.

He added: "I was glad to get on the score sheet and get my first goal for Kidderminster against Wrexham, Hopefully I can get a few more and we can keep ourselves on a nice little run.

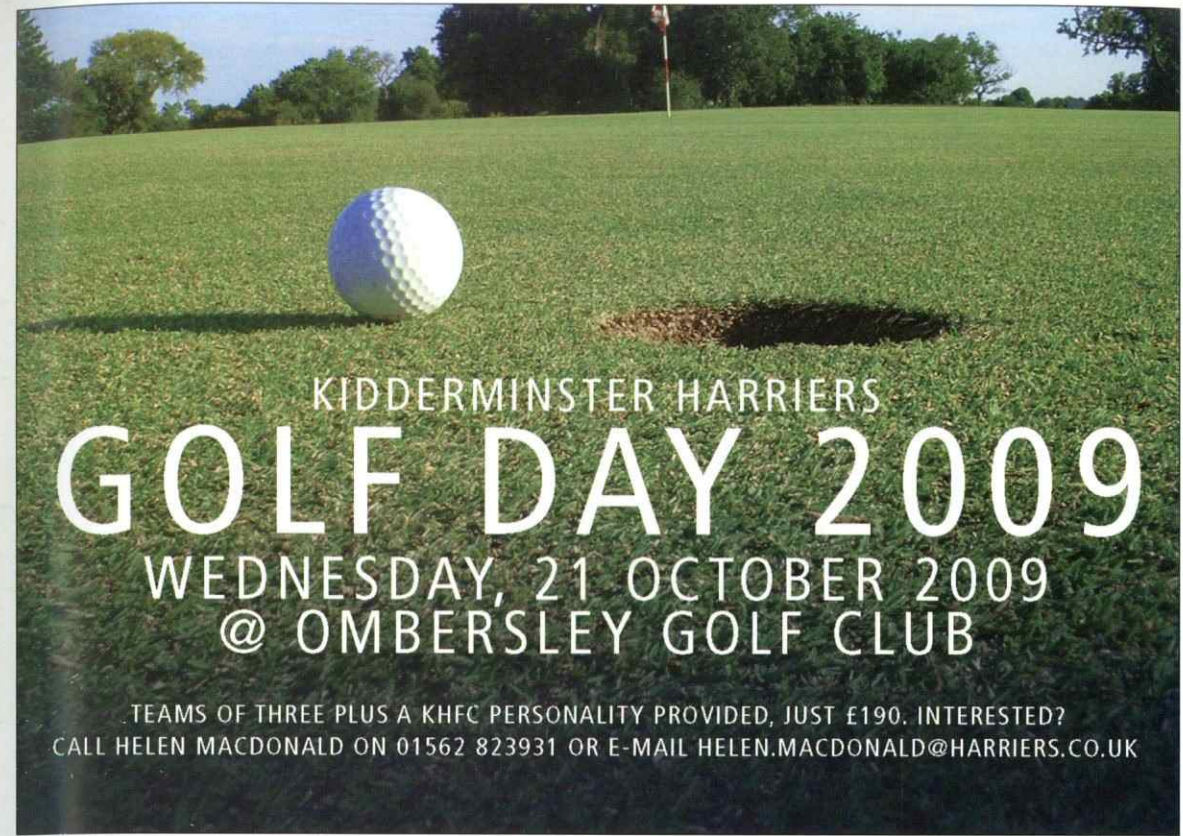

"Other teams might start fearing us, you never know. Winning is a good habit to get into and we're not getting carried away or thinking we're better than anyone else.

"The gaffer has said he wants to see 100% in every game and that's what we're all trying to do."
